Karur,Tamilnadu,India

SUMMARY

Final-year Computer Science Engineering student with proficiency in Python and knowledge of Java,MYSQL,HTML,and CSS. Strong problem-solving abilities and a keen interest in software development. Seeking an internship to apply technical skills and gain industry experience..

EDUCATION

- Chettinad College of EngineeringandTechnology, Karur — **BE(CGPA 8.2)** — **2023 - 2027**
- Government Model Higher Secondary School, Dindigul — **XII (81.8%)** — **2022-2023**

SKILLS

Languages: Python, Java, C
Web Technologies:HTML, CSS
Frameworks:Spring Boot
Database:MySQL
Tools:Canva,Figma,GitHub,VSCode,Cisco Packet Tracer

PROJECTS

BLOOD SYNC

Blood Sync is an intelligent blood donation managementplatform designed to bridge the gap between blood donors and patients in need. The system automates the process of sending real-time notifications to registered donors when a blood request is raised.

FOOD WASTE MANAGEMENT SYSTEM

The Food Waste Management System is a smart web-based platform designed to reduce food wastage by connecting food donors such as hotels, restaurants, and event organizers with NGOs, volunteers, and needy people. The system helps distribute excess food efficiently instead of allowing it to go to waste.

AREA OF INTERESTS

- Frontend developer
- Python developer
- Designer

CERTIFICATIONS

- Certified in Cloud Computing and Programming in Java through NPTEL.
- Completed a one-month internship in Agentic AI with hands-on exposure to AI-driven technologies and intelligent automation concepts.

ACHIEVEMENTS

- Best Performer — Student Skill Development Program,Shree Renga Polymers (2025).
- 2nd prize in paper presentation (quantum physics)
- 2nd prize in debugging (c)
