SABITHA ANANTHI S

COMPUTER SCIENCE ENGINEER

91 8838555825 | ssabithaananthi2@gmail.com | Karur, TamilNadu
GitHub | Portfolio | LinkedIn

SKILLS

Technical Skills

- Programming: Python, Java, C
- Database: SQL, MySQL
- Web: HTML, CSS, JavaScript, ReactJS
- Technical: Debugging, Troubleshooting, Problem Solving
- Development Tools:GitHub,VS Code, Postman,Chrome DevTools

EDUCATION

- Chettinad College of Engineering and Technology, Karur
  BE.CSE (8.2 CGPA) 2023-2027

- Government Model Higher Secondary School, Dindigul
  XII (81.8%) 2022-2023

ACHIEVEMENTS

- Best Performer — Student Skill Development Program(2025)
- 2nd prize in paper presentation
- 2nd prize in debugging (C)

HOBBIES

- Learning Emerging Technologies
- Problem Solving
- Technology Research
- Building miniprojects

SOFTSKILLS

- Leadership
- Quick Learning
- Attention to Detail
- Debugging

CERTIFICATIONS

- Python and AI Tools - SNR Automations
- Test Basics and Test Management - Infosys Springboard
- Getting started with Artificial Intelligence - IBM SkillsBuild

PROFESSIONAL SUMMARY

Computer Science Engineering student with strong problem-solving, analytical, communication, and troubleshooting skills. Proficient in Python, Java, C, SQL, MySQL, HTML, CSS, JavaScript, and ReactJS, with hands-on experience in web development, database management, CRUD operations, and debugging. Seeking to apply technical and problem-solving skills in a Technical Support role to deliver effective solutions and resolve technical issues.

AREA OF INTERESTS

- Technical Support
- Software Debugging
- Python Development
- Database and SQL

PROJECTS

Food Waste Management System
Technologies: HTML, CSS, JavaScript, SQL

- Developed a web application that connects food donors with individuals and organizations to reduce food waste.
- Designed responsive user interfaces and integrated an SQL database for managing users and donation records.
- Implemented CRUD operations for food donation and request management.

Blood Sync - Donor-Patient Connection Platform
Technologies:HTML,CSS,React,PHP,SQL

- Blood Sync is an intelligent blood donation management platform designed to bridge the gap between blood donors and patients in need.
- The system automates the process of sending real-time notifications to registered donors when a blood request is raised.

AI Government Form Assistant
Technologies: Flutter,Python,OCR,Firebase

- Developing an AI-powered application that uses OCR and NLP to simplify government forms and explain fields in English and Tamil.
- Implements missing-document detection, repetitive field auto-fill, and voice-based regional language guidance to improve accessibility.
- Generates a pre-submission checklist and application summary to help users avoid common errors and complete forms accurately.
